

# Engineering Design Solutions for Industrial Processing Facilities

Comprehensive Engineering Advantage

Facility Engineering Services, PA is ready to help with your industrial processing or manufacturing facility. As industry focused engineers, we have extensive experience planning expansions and greenfield facilities. We also have experience laying out and designing material handling systems, process lines, bulk and liquid storage systems along and their associated utilities.

As a full service engineering firm, Facility Engineering Services, PA brings a total facility mind set to the development of your project, Our engineers are familiar with many aspects of industrial processing plant design and have worked in many industries such as paper mills, foundries, and general manufacturing.

## Facility Engineering Services, PA

### Client Advantages

- Highly experienced staff
- Understanding of industries served
- Staff has extensive plant experience
- Full service design

### Comprehensive Advantage

- Increased speed of delivery (time saved)
- Better coordination (fewer errors)
- Decreased costs (money saved)
- Greater productivity
- Higher-quality work.

### Capabilities:

- Planning
- Remodeling
- Expansions
- New Facilities
- Cost Determination
- Site Selection

### Specialties:

- Flown Diagrams
- Overhead Cranes
- Tanks
- Vessels
- Vibration Analysis
- Structural Dynamics
- Process Modeling
- Process Layout

### Disciplines:

- Process Engineering
- Mechanical Engineering
- Electrical Engineering
- Facility Layout and Planning
- Building and Structural Engineering
- Project Management
